Web Technologies (102606) - Assignment to Course-Project File Mapping

Course Project: LipiSutra (React 19 + Vite + Tailwind + Firebase Firestore + Google Gemini / Vision / Maps APIs)

No.	Assignment Title	Verdict	File(s) to submit
1	Basic HTML: headings, lists, images	**NOT IN PROJECT**	`code/assignment01/assignment01_basic.html (new)`
2	Semantic HTML tags	**PARTIAL**	`code/assignment02/ assignment02_semantic.html (new)` `cite src/App.jsx + src/components/Navbar.jsx`
3	CSS inline / internal / external	**IN PROJECT**	`src/index.css (external)` `src/App.jsx (inline)` `src/components/UploadSection.jsx (internal)`
4	Responsive: Flexbox, Grid, media queries	**IN PROJECT**	`src/components/ResultCard.jsx` `src/components/Navbar.jsx` `src/components/PublicView.jsx` `+ code/assignment04/* (raw @media)`
5	CSS positions & other properties	**IN PROJECT**	`src/components/Navbar.jsx (sticky)` `src/components/UploadSection.jsx (absolute overlay, z-index)` `src/index.css`
6	Link JS file, events, array functions	**IN PROJECT**	`src/services/vision.js` `src/components/Navbar.jsx` `src/components/HistorianView.jsx` `+ code/assignment06/* (plain <script src>)`
7	JS frontend + form validation	**NOT IN PROJECT**	`code/assignment07/assignment07_form.html (new)` `code/assignment07/ assignment07_validation.js (new)`
8	Basic SPA: React functional components + JSX	**IN PROJECT**	`index.html` `src/main.jsx` `src/App.jsx`
9	React props, state, hooks, events, conditional	**IN PROJECT**	`src/components/MuseumView.jsx (custom hook useCountUp)` `src/components/PublicView.jsx` `src/components/ResultCard.jsx`
10	Fetch data from API using Fetch + JSON	**IN PROJECT**	`src/services/translate.js` `src/services/gemini.js` `src/services/vision.js`
11	DOM manipulation + event handling	**IN PROJECT**	`src/components/MapSection.jsx` `src/components/UploadSection.jsx` `+ code/assignment11/* (delegation demo)`
12	PHP form, validation, strings, sessions	**NOT IN PROJECT**	`code/assignment12_php/login.php, submit.php, logout.php (new)`
13	PHP-MySQL CRUD	**NOT IN PROJECT**	`code/assignment13_php_mysql/*.php + lipisutra.sql (new)` `alternative cited: src/services/firebase.js (NoSQL CRUD)`
14	Node.js + Express server, routing, static	**NOT IN PROJECT**	`code/assignment14_express/server.js + public/ (new)`
15	REST API: Node, Express, database	**NOT IN PROJECT**	`code/assignment15_rest_api/server.js, db.js, routes/manuscripts.js (new)`

Legend: **IN PROJECT** **PARTIAL** **NOT IN PROJECT** - 'IN PROJECT' means an existing LipiSutra file satisfies the assignment and can be submitted as-is. 'NOT IN PROJECT' means fresh code was written for it (supplied under WT_Assignments/code/ and reproduced in full inside that assignment's document).
